

# Imagining Tomorrow: Alternate Energy Futures™

A Short Story Contest for Massachusetts High-school Students

Presented by NESEA  Northeast Sustainable Energy Association

## *About the Author* - Keith Chung, "A Morning in 2040"

Keith Chung is 17, and a senior at Northfield Mount Hermon School, a private school in Northfield, MA.

He writes: My name is Keith Chung. I grew up in Hong Kong, but now I reside in Shanghai. I have been attending boarding school in New England for the last 4 years. I decided to write this story after the things I have learned in my environmental classes.

I included the renewable energy which we went over recently. I also added some of the stuff I read on the news such as the nanotech stuff. I kind of created a world that I would like to live in, in the future.
